## My Alien Family

My name is Nick and I come from a very unusual family. We live on Earth but are not human. We are aliens! We have tried to make ourselves look like humans, but we have always made one mistake. One part of our body just isn't right.

Let me tell you about my family...

I'll start with me. My eyes are too big. They are as big as my hands! My wife's name is Sarah, and she has big ears. They are as big as an elephant's ears. We have two sons; Ben and Sam. Ben has a round nose, and Sam has a square mouth! I don't have any brothers, but I do have a sister named Betty. She has ten toes on each of her feet. She is married to her husband Joe – he only has three fingers on each hand. They have two daughters – Rose and Emma. Rose has very big feet, and Emma has really long legs!

Our parent's names are John and Jane. My dad has three arms, and my mom has enormous hands. My dad has one brother – his name is Mark. His hands aren't enormous, but his thumbs are very long. His wife Mary only has one eyebrow! Their daughter Megan only has two teeth!

My grandparents are very kind but some people are scared of them. Can you guess why? My grandfather Steven has a huge head, while my grandmother Lucy has a neck as long as a giraffe's!

I told you my family was unusual.

**A. 1-14. Complete the family tree and draw my family in the boxes.**

**B. Then complete the sentences:**

15. Megan is Jane's \_\_\_\_\_.
16. Betty is Lucy's \_\_\_\_\_.
17. Rose is Sam's \_\_\_\_\_.
